MONETARY AND COMMERCIAL

The aspect of affairs during the week has been about as reported for the previous week. There is but little produce coming in, farmers being engaged in harvesting. The reports are generally favorable for a good yield of wheat while oats and tyo are premising and the grass is look. ing fine. The close of the fireal year will find the Sciences of the Corporation in a better condition than for a long time and the prospects for still further improvement are most favorable. The interest is now met promptly and the boads have stendily advanced, with very few if any on the market. The reports of the officers will show increased receipts in many branches, and with strict economy and wise legislation the coming year will be a bright one in the financial annals of the city. In monetary circles there is nothing of special interest to note and no dif Il ulty is experienced in borrowing on good security. In Baltimore the supply of loanable funds is very abundant, and to berrowers in good credit or having first class collateral rates ere low. Loans range from 4 to 6 per ct and discounts 5.6, with the bulk of the business at the inside figures. The New York money market continues casy, with 3 per ct the ruling rate for demand notes. Time notes and prime mercaptile paper are unchanged. U S bonds are quiet but stoady. Virginias are firm. The buying is evidently of an earnest character. Peelers are quoted 42s43, and Black serip 171a 19. Railroad securities are firm. Baltimore and Ohio stands at 200 bid and 210 ask. Richmond bride's parents where ar caption was held until and Danville 1895s and again at 108; Virginia ten o'clock, when they let's on a Northern trip,

FASHIONABLE WEDDING -The muriage of Mr. Thomas A. Lae, of Staunton, Va., to Miss Carrie C. Wattles, erq. of this city, took place in S'. Paul's Churc's, last tight at eight o'clock, Rev. Geo. H. Norton, D. D., recor of the Church, officialing, in the presence of a large assemblage. The church w s brilliantly illuminated, and the floral decirations about the altar were profuse and beau iful. At eight o'clock the bridal party entered the church and preceded to the altar, where the marriage ceremony tock place under a Gothic floral arch. from the centre of which were suspended a large horse shoe and the traditional marriage bell. Tre organ, owing to the indisposition of Miss Bessie Falls, the regular organist, was presided over by Miss Virginia Evars, and the beautiful wedding march, followed by low, sweet music, made the ceremony very impressive. The bride was at-tired in white brocade silk and satin crass en traio, with bridal vreath and long white veil. The groom was attired in full evening obstume. The groomsman and bridesmaid were Mr. H. S. Wattles, Jr., and Miss Nallie Wattles, brother and sieer of the bride. The ushers were: Messrs. Geo. A. Mushbach, F. F. Marbury, Leonard Marbury, Thomas W. Robioson and Wm. E. Fendall. THE PRIZE DRILL. - About 6 o'clock yester day afternoon a very large cloud of interested speciators a sembled about the corner of Came. ron and Washington streets, and the cadet e ras of St. Joho's Academy soon appeared for the prize drill. Lt. George McBurney, j... of the A. L. I; Mej. B mediet J. Bargess, formerly commandant, and Mr. M. J. Water man, the denor of the prize medal, noted as judges, and the cadets were drilled in equada before them until about twelve were selected, eight from Co. A. and four from Co. B. as best drilled. Then came the real contest. Order after order was given and obeyed, and it was only now and then that some cadet made a length, af er more than an hour's drill there remained but three, Olderly Sorgeant P. Manly Clarke, of St. Mary's county, Md., Quartermaster Sorgeant David H. Jones, of Mount Jack, on Va., of Co. A., and Corporal Bernard J. Dannelly, of this city, of Co. B. This Lidge, which was organized March 9.h. has over ferry members and is in a flourishing condition.

CAUTION .- Persons should be very careful at this season what they rat and how they eat. Numerous cases of cholera merbus and like complaints are reported almost daily in this city. Of course, many of these intesting troubles are superinduced by imprudence on the part of the sufferers in eating partly cooked or stale vegetables, or gorging themselves with some viand perticularly pleasing to the pelate. Some thoughtless people, while their systems are in perfect order, eat everything with impublicy, and are disposed to treat with levity the expostulations of temperate friends; but it often happens that digestion becomes so slightly deranged that the persons themse'ves may not be fully aware of it, and at such times the elightest indiscretion in eating or properly mas tication some nowhelesome vegetable will bring on visceral troubles which too often terminate

PAPER MILL -A gent'eman of large experinee and fice business qual fications has recently given some atten ion to the manufacture of paper, and informs us that the result of his exquiries are mest satisfactory, and that he tion of the cty. has reached the corclesion that a mill for the making of paper established in this city would be one of the most profitable investments that ciuld be ergiged io. Strew that is so exteu-sively used, especially in the minufacture of the cosrser qualities of paper, is at hand in great quantities. The water here is pure and in superabundaner, while all the facilities needed in the manufacture are unexpelled. The amount of capital mossasy to establish a paper in 1 is comparatively small, while the prefits are large, and we have teen requested to throw out these suggestions to assert in if some one will not take held and venture upon an enterprise that will certainly be most remunerative.

HANDSOME BADGES .- Frank A. Recd erq . Emipent Commander of Old Damioion Commandery, K. T., of this city, has been presen-Eninent Commander, Joseph B. Msson, of Do Molsy Commander, K. T., of Boston. Mss., and the other by Eminent Commander George H. Rhodes, containing the coat of arms of S., John's Commandery, K. T., of Providence R. J. These badees are intereded as dence, R. I. These badges are intended as testimonials of the high esteem in which Com mander Reed is held by the gentlemen named for the valuable services rendered by him on the occasion of the recent visit of their Commanderies to Richmond, Va. The badges, which are on exhibition in the window of Mr. R. L. Adam's jawelry establishment, on King street, are greatly td mired.

A BRIGHT COMET. - A comet, one of magnitude, the first for seven years, has made its appearance, in our ekies. The Smithsonian Institute received yesterday from Prof. J. Sharpless, of Haverfart college, Pa., the announcement of the discovery by Mr. Lewis Edwards at Haverlerd ots rvature on the 231 of Jane, 1881, at half-past 2 o'cleck a. m .. mean time, of a bright comet to cight degrees southeast of Capeila. This comet was plainly visible in this city in the sky to the perihwest ast before day break this mercing. The strange visitor is bright and beautiful, well worth social, How long the comet will stay is not known.

CAR FACTORY .- It is now understood that can hardly fail to be most profitable and that it would persee facilities erjoyed by few establishments of the kind in the country.

DR. G. T. KLIPSTEIN PROFESSIONAL SERVICES to the citzins of Alexandria and vicinity. Of-Prince st., opposite the Postoffice. jel3-dt&2w

CARD-It should be generally known that more of their tech need not wait weeks and months for artificial substitutes and endure inconvenience, disagreeable changes in voice, fa-cial expression, &c., but may have artificial teeth made before and inserted immediately af-ter extraction of their natural teeth. By this mode a batter adaptation, a more pleasant ex-pression and a nearer approach toward preserving the natural harmony of the features are se-cured, and very much of the pain and difficulty experienced in learning to use teeth are also avoided. I have practiced this mode successfully for seven years, and having introduced it here, would be glad to refer any one interested to pa-tients who know ofit from experience In treating the natural teeth my object is to preserve every one that time, petience and modern methods of treatment can save. The use of arsenic in de stroying exposed nerves is condemned by the more enlightened of the dental profession on account of its turning teeth dark, inducing ab seess and finally the loss of the teeth. The nerve pulp, which is the source of life to the tooth, hould always be treated, when exposed, with a view to its restoration to health. I use no chean alloys for filling; my fees are much less than are usually charged for the same class of work. Gold filling from \$1.50 up; other work at pro-

portionstely low rates. W. DORNALLY, D. P. S., Graduate Dental Depart . Univ. of Michigan. Office: 1321 F street, northwest, Washington
